

Chalmers

MOTOR CARS

THE Chalmers "30" is the only medium priced car that was ever awarded the Glidden Trophy

Of all the Glidden Tours, that of 1910 was the longest, and by far the hardest. It lasted for sixteen running days and covered 2,851 miles. It started at Cincinnati and went "by way of Dallas, Texas," through thirteen States to Chicago.

Words and pictures cannot make plain the racking cobblestone roads of Kentucky—the stump-studded forest trails of the Tennessee mountains—the swamps of Arkansas—the deep, treacherous sands of Texas—the mud of Kansas—the bridgeless southern streams or the sweltering heat that punished cars and men alike.

It is the opinion of experts who made this tour that no car in the world could have completed it with a perfect score. Yet, from Cincinnati to Louisville—to Nashville—to Sheffield, Ala.—to Memphis—to Little Rock—to Hot Springs—to Texarkana—to Dallas—to Lawton, Oklahoma—to Oklahoma City—to Wichita, Kansas—eleven consecutive days out of the sixteen, through the hardest part of the trip—and for five days after every other car on the tour had been penalized, not a single point could be assessed against the Chalmers "30"—the \$1500 car—\$1600 with magnet, Prest-O-Lite tank and gas lamps.

In all the history of motoring, there is no performance like this. The Glidden Trophy has never been won before by a car costing less than \$4000.

If you are thinking of buying a car, what better proof could you ask of reliable performance under all conditions than you have in the Glidden Tour record of the winning Chalmers "30"?

The Chalmers "30" has never been defeated in any important motoring event by any car of its price and power class. The Chalmers "Forty" won the Detroit Trophy in the 1909 Glidden Tour. Chalmers cars have won more events of all kinds in proportion to the number entered than other cars.

In addition to perfect mechanical performance, you get in the Chalmers all the beauty of line and finish that you can find in any car.

What more could you ask in any car at any price than you get in the medium-priced Chalmers?

We have never had so large a volume of business as we have now. There has never been so satisfying a demand for Chalmers cars as there has been since we announced our 1911 models. Yet this demand will not affect the Chalmers policy of building cars for quality, not quantity.

We suggest, therefore, that you place your order now, so as to be sure of getting the car that is your first choice. Chalmers cars are the first choice of those who look most carefully into the automobile question and know the most about automobile values.

1911 cars are now on exhibition. Deliveries are being made according to schedule.

NET CLOSING ON DYNAMITERS

Many Clues Followed to Nothing—Suspects Arrested For Investigation.

Developments in the Los Angeles "Times" horror are coming to the surface slowly. A great many of the clues that have been run down have amounted to nothing. The latest from the police side is contained in the coast dispatches as follows:

SACRAMENTO, Oct. 12.—Arrested on suspicion that he was concerned with the dynamiting of the Los Angeles Times building the morning of October 1, a man known as George Wallace was arrested at the postoffice here yesterday upon request of Chief of Police Galloway, of Los Angeles.

When arrested Wallace attempted to destroy letters which he had just received. He appeared badly frightened. The letters taken from Wallace were signed by John Murray and were sent from the Hotel St. Louis, 653 Central avenue, Los Angeles. One of the letters was mailed at the Arcade station October 5 and the other the day previous. The first letter, the one which tells most, is as follows:

Refers to Chandler.

"Friend George: I sure was surprised when I got to the room last night and got your note, but I soon got over my surprise. While going to supper I was held up and felt of my hip pockets three times inside of five minutes, once on Main street, again on Fourth and Los Angeles, and again on Seventh and San Pedro. Those—those is crazy. Yes, gone mad. There is no doubt in my mind that Chandler knows more than he says. The least said through the mail, the better. George, Jim told me you told the chief you were born in Glasgow. You know the rest. Just think what I mean, George. I have no more to say now.

"If I was talking to you I would tell you a whole lot of what I heard and seen during the short time you were gone."

"Grind Down the Poor."

The second letter contains less that seems of possible importance to the police. The writer discourses upon the rich men who want to grind down the poor. In the course of the letter he refers to a man named Murphy, who Wallace says is a miner with whom he had worked in Butte county. Wallace will be taken to Los Angeles.

SAN FRANCISCO, Oct. 13.—It became known tonight that the detectives from Los Angeles, who have been in this city several days in connection with clues to the three men who purchased dynamite believed to have been used in the destruction of the Times building, have discovered the lodging place of "J. B. Bryce" and "P. A. Perry," two of the three suspects, prior to the time that they moved to the Argonaut hotel, Bryce became a lodger at the home of Mrs. D. H. Ingersoll, 3656 Twentieth street, on September 4.

Devoted Time to Plotting.

Mrs. Ingersoll refused to talk much about her former lodger, saying that all the information she possessed was in the hands of the authorities. She said, however, that Bryce and Perry devoted their time while together in plotting against some one, she would not say who, and that they frequently mentioned dynamite.

These discussions were held in Bryce's rooms, but at times the men's voices were raised to a pitch that made them audible all over the flat. Is Perry the "Squint-Eyed"?

Mrs. Ingersoll's description of Bryce tallies exactly with that given of Bryce, one of the purchasers of the dynamite, while she described Perry in such a way as positively to identify him as the "squint-eyed man," another of the trio. Mrs. Ingersoll also said that she was acquainted with a woman friend of Bryce and that it was through this young woman he happened to go to the Ingersoll house to room. The name of the woman Mrs. Ingersoll refused to divulge.

According to Mrs. Ingersoll, Bryce came to her house September 4, telling her that he was a printer from Chicago, but that he had just come from Los Angeles, where he had been for two or three days.

Answered to Name "Smithy."

Bryce greeted Perry when the latter called him "Smithy." When Bryce went to the hotel he telephoned Mrs. Ingersoll asking her to take dinner with him. She refused, she said, because the conversations she had heard between Bryce and Perry had alarmed her. What the substance of these conversations was she refused to say, further than that they were plotting against some one and used the word dynamite.

Mrs. Ingersoll was positive that the two men did not leave here on the gasoline schooner Kate, but would not say how she knew. She said both men left San Francisco some time after September 24 and that they went in different directions.

Expect Capture Soon.

Perry, the "squint-eyed man," is thought to be the man who rented the launch Pastime or Peerless, the description furnished by Mrs. Ingersoll tallying exactly with that given by the launch owner.

Acting on information obtained from Mrs. Ingersoll, the detectives believe that they will succeed in locating the suspects within two or three days.

CASTORIA

for Infants and Children.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrup and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics. Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

The signature of *Chas. H. Fletcher* guarantees genuine Castoria.

Physicians Recommend Castoria.

"Your preparation known as Castoria I have used for years in children's complaints and I have found nothing better." J. J. Latta, M. D., Cleveland, Ohio.

"For several years I recommended your 'Castoria' and shall always continue to do so, as it has invariably produced beneficial results." Edwin F. Palmer, M. D., New York City.

"Your Castoria is a meritorious household remedy. It is purely vegetable and acts as a mild cathartic. Above all, it does no harm, which is more than can be said of the great majority of children's remedies." Victor H. Coffman, M. D., Omaha, Neb.

"Your Castoria holds the esteem of the medical profession in a manner held by no other proprietary preparation. It is a pure and reliable medicine for infants and children. In fact it is the universal household remedy for infantile ailments." J. A. Parker, M. D., Kansas City, Mo.

Children Cry for Fletcher's Castoria.

SOLID SOUTH DETERS TEDDY

Significant Statement Made by Roosevelt During Reception at Atlanta.

ATLANTA, Ga., Tuesday, Oct. 11.—"By George, if I thought I could carry a single Southern state, I would willingly run for the presidency."

Colonel Roosevelt made that statement Saturday. It was learned yesterday, in the presence of Mayor Maddox and other members of the reception committee that escorted him through Atlanta's streets.

As the procession moved along the streets, with the colonel bowing his acknowledgments to the thousands on either side, Mayor Maddox told Mr. Roosevelt that he had lived in Atlanta all his life and the crowd was the largest he had ever seen on the streets on any occasion.

"You see, Colonel Roosevelt," added Colonel Fred J. Paxson, president of the Atlanta Chamber of Commerce, "what the people of Atlanta would do for you, if you gave them a chance."

"I regard it as unfortunate," said Colonel Paxson last night, "that the matter reached the newspapers, as Colonel Roosevelt was the guest of the city and I considered his statement, made in his usual enthusiastic manner, as confidential."

AERO BOMB TEST TO BE TRIED BY THE NAVY

Monitor Tallahassee Ordered to Washington to Undergo Bombardment.

WASHINGTON, D. C., Oct. 8.—The Navy Department proposes to test for itself the various theories as to the destructive powers of explosives dropped on the decks of battleships from airplanes.

The monitor Tallahassee has been ordered to Washington for a series of tests, the final one of which will be an encounter with an airplane under battle conditions. The Tallahassee was first named the Florida and is a sister ship of the monitor Arkansas.

She is heavily armored, carries twelve-inch guns in turrets and has a steel protection for her deck's strong citadel armor. It is the purpose of the department to begin the testing of the armor-piercing shells against the armor of the Tallahassee at inclined angles.

In the recent tests with the ram Katahdin a twelve-inch shell which went wild sent the old sea monster to the bottom of the Potomac. The tests with the Tallahassee will, of course, take place at a great distance from Washington, and more secrecy will be preserved than that which allowed the story of the Katahdin to be told.

It is well known that the naval chiefs do not believe that there is much danger to battleships from explosives dropped on the deck of a vessel unless perchance the bomb should drop perpendicularly into the funnel of the ship.

One part of the test will be a small arms attack on the oncoming ship. This must be done with blank cartridges, but it can be determined with sufficient accuracy whether an airplane will be destroyed which approaches within rifle shot of the crew of a battleship.

MILD LIQUID CURES ECZEMA.

Skin sufferers! Drop greasy salves and nasty medicines. That mild, soothing liquid, D. D. D. Prescription, stops the awful itch with the first drops. A doctor's prescription of acknowledged value. Get a bottle at Honolulu Drug Co.
